PABINEAU FIRST NATION WORKPLACE

ESSENTIAL SKILLS INITIATIVE

Are you interested in discovering new things that could help you make your life even better than what it is now?

If so, the Pabineau First Nation Social Development Program has something just for you!

I am offering a series of workshops that teaches useful skills to help you be more successful at the goals you have for your life at home, work or school. During these workshops you will also be able to use what you learn to have happier relationships with your family, neighbors well as the people you work with.

Not only will this be a chance for you to learn important skills employers are looking for, but you will also have the chance to apply what you are learning to organize a special project in your community.

This 7 day program will be delivered over a seven week period...Just one day a week is all you will need to give to begin learning new useful skills that can help you succeed in your everyday life at work and at home! Our promise to you is that the information in these workshops will be given to you in a respectful, relaxed, interesting and informative way.

I will invite you as Social Development Representative to call and register today!!!
