

Essential Skills/ Labor Force Summer Activities

From grade 6 to 30 years old are welcome to attend.

August 3rd, 2010 - Tubing & scavenging hunt

August 5th, 2010 - Horse grooming, riding, beachcombing

August 3rd, 2010 - Drift down the Miramichi River in your tube, you dip your fingers into the warm water and realize that life doesn't get much better than this.

You relax, closing your eyes behind your sunglasses as you lean back and float effortlessly down the 'Little South West'. You take this moment to feel the sun on your skin, knowing in a few minutes you'll be getting your next clue from the GPS that alerts you of each upcoming challenge. You clear your mind and drift in the warm sun; then, just around the river bend..

You're ready for action! Communicating with friends and family members, you head for the next geo-cache checkpoint. Your water-bound scavenger hunt has just begun, along with a day filled with nature, adventure, laughter and fun. We will be returning by 4pm. Please confirm attendance with Marie Kryszko.

August 5th, 2010 - Horse grooming, horse back riding, trail goes down to the beach (Salmon Beach)

BBQ at same place - 10 picnic tables available.

Swimming at same beach - or picking sea glass, walking along the beach. And horse backing riding continues.
